HOSPITAL MEDICARE

Medicare pays up to 90 days for each spell of illness. For the first 60 days, Medicare pays 100% of covered hospital services. For the 61st through the 90th day, Medicare pays all but $371 per day.

**Lifetime Reserve Days:** Every Medicare beneficiary has 60 days that they may use in their lifetime to cover days in the hospital that exceed the Medicare limit of 90 days. Once these 60 days have been used, they are not replaced. When one of these days is used, Medicare will pay everything except the first $742 per day.

NURSING HOME MEDICARE

Medicare pays for Skilled Care only. One must have been hospitalized as an inpatient for three consecutive days before entering the nursing home. For the first 20 days, Medicare pays all of the covered costs. For days 21-100, there is a co-insurance payment of $185.50 per day and Medicare pays the rest. After 100 days, Medicare pays nothing.

MEDICAID

If one is eligible for Supplemental Security Income (SSI) or Temporary Assistance for Needy Families (TANF), then one is eligible for Medicaid. The Georgia Department of Community Health’s Medical Assistance Plans Division administers Georgia Medicaid: **1-866-211-0950**. An application can be made at your local county DFCS office. If you lose your SSI or TANF, you do not necessarily lose Medicaid. The State must make an independent determination.

**Transfer of Assets for Long-Term Care Medicaid:** In Medicaid for long-term care, which includes nursing homes and the Community Care Services Program, where assets are transferred for less than the fair market value within 60 months before application for Medicaid is filed, a person may be disqualified for a period equal to the value transferred.

**Contact the Division of Aging Services for more information about this subject in our publication, “Medicaid Information for Long-Term Care.”**
COMMUNITY CARE SERVICES PROGRAM

This program assists eligible Medicaid beneficiaries to live in the community and delay or avoid institutionalization. It provides Medicaid coverage and in-home services for persons who meet the same medical, functional, and financial criteria for placement as residents of a nursing facility, but choose to stay in their own homes. If a person’s income level exceeds the Federal Benefit Rate for Supplemental Security Income (SSI) then there is a cost share to participate in the program. The cap for eligibility is **$2,382** Income exceeding this amount will require a Qualified Income Trust or Miller Trust for eligibility. Cost share is based upon the amount of income over the SSI amount. Some of the services available include personal care aide, adult day health, emergency response system, nursing services, etc.

For more information, contact the Community Care Services Program Office for your area through the local Area Agency on Aging or the Department of Community Health’s Medical Assistance Plans Division.

NURSING HOME MEDICAID

This is a program that enables people aged, blind or disabled who need nursing home care but are unable to afford it a means by which to receive care through the Medicaid program. Income exceeding the amount below will require a Qualified Income Trust or Miller Trust in order to ensure eligibility.

- **Income limit**: Up to **$2,382** per month, per person
- **Resources limit**: $2,000 individual  
  $3,000 couple

SPOUSAL IMPOVERISHMENT

This is a program that can prevent a married couple from having to spend down all of their resources. The program allows the spouse who remains at home, the Community Spouse, who is not receiving Medicaid, to keep up to $3,259.50 of the couple’s income and $130,380 of the couple’s resources.

**Allowable Resources:** The home, a **$10,000** limit for burial exclusions for the applicant/recipient and for the spouse, including accounts, life insurance and preneeds contracts, **$2,000** savings for the applicant/recipient, household furnishings, certain automobiles, and some other items.
**Example:** For a Nursing Home (NH) bill of $2,000/month, where the community spouse has $1,000.00 income and the nursing home resident has $1,200 income; the calculations will be as follows:

**Step 1**
The NH Resident receives income in the amount of $1,200: $1,200 income (-) $70 Personal Needs Allowance (-) $130 in excess medical expenses (=) $1,000 available income

**Step 2**
The Community Spouse receives $1,000 income: $1,000 income (+) $1,000 from NH resident (=) $2,000 total income which is less than $3,259.50, therefore community spouse keeps $2,000 income, leaving $0 for the resident’s contribution to the nursing home bill and the Medicaid payment is $2,000.

Incurred excess medical expenses not covered by Medicaid, (i.e. dentures, some medications and chiropractic care) may be deducted from the NH resident’s income. Most medications should be covered by the NH resident’s Medicare Prescription Drug Plan for those on Medicare and NH Medicaid. Your local county DFCS office must be notified.

**SUPPLEMENTAL SECURITY INCOME [SSI]**

For those age 65 or older, blind or disabled with income as provided below, apply at Social Security.

**January 2021**

| Individual | $794 per month |
| Couple     | $1,191 per month |

There is a resource limit of $2,000 for an individual and $3,000 for a couple. Resources include things like cash, savings, certificates of deposit (CDs), etc. Certain things are excluded from resources.

Examples of things excluded from resources are: home, car up to $4,500, prepaid burial plots, caskets, vaults etc. and up to $1,500 in a burial account, household goods up to $2,000, trade/business, and life insurance face value up to $1,500.
Appeal Time: 60 days.

Pickle People: If you received Social Security or Supplemental Security Income in the same month and Supplemental Security Income was canceled due to a cost of living increase, you may be eligible for continued Medicaid if you are eligible, but for the cost of the living increase. Apply at your local county DFCS office.

ADULT MEDICALLY NEEDY “SPEND DOWN”

Eligible persons are those who are aged 65 or older, blind or disabled with high medical bills and income too high for other categories of Medicaid. Total unpaid bills must bring income below the required limits. Apply at your local county DFCS office.

January 2021

Individual $337 per month
Couple $395 per month

Resources: $2,000 individual; $4,000 couple

Appeal Time: 30 days

income. Most households must meet the maximum gross income to even be considered eligible for the program and then meet the net income limit. You can apply at your local county DFCS office. Multiply the net income by .3 and subtract that figure from the maximum food stamp allotment to obtain the household allotment.

**Resources:** $3,500 elderly (60 and over); $2,250 non-elderly
**Exempt Resources:** Home and lot; household goods; cars exempt
**Appeal Time:** 90 days (10 days continued benefits)

Proved medical expenses in excess of **$35** can be used to increase food stamp allotments for the elderly and disabled. These would include one-time medical bills and recurring expenses such as Medicare and insurance premiums, (when paid by the recipient) and doctor visits. This now includes medical mileage defined as transportation to and from medical appointments and the pharmacy in the recipient’s own vehicle. Mileage expenses should be reported on a Medical Transportation Log which is available from your local county DFCS office.

For transportation by taxi, bus, train, etc., use the actual cost of the trip to claim
it as an expense. Georgia now has a Standard Medical Deduction if expenses exceed $35 per month for elderly and disabled adults.

**OTHER FOOD STAMP BUDGET ALLOWANCES**

**Standard Deduction:** $167 maximum (1-3 people)
- $181 (4 people)
- $209 (5 people)
- $240 (6+ people)

**Shelter Deduction:** $586 (no maximum for elderly or disabled)
For elderly households, all shelter costs over half the household income may be deducted (i.e. rent/mortgage, taxes, interest, utilities – gas, electricity and water). There are additional standards in place for some households in Georgia. Check with a local Division of Family & Children Services office for more information.

**Standard Medical Deduction:** $136*
For elderly and disabled households with proved medical expenses in excess of $35 per month; recipients may choose to request an actual expense deduction instead of using the standard medical deduction. *Effective April 1, 2020, Georgia will allow households with an elderly or disabled member with recurring medical expenses in excess of $35 per month to claim a standard medical deduction of $136 per month. To be eligible for the standard medical deduction, households must verify that they incur more than $35 per month in qualifying medical expenses. The household may verify medical expenses using one medical bill that is more than $35 per month to qualify for the standard medical deduction.

A dependent care deduction for work, training or education.

A 20% deduction for earned income.
